

Starting Your Patients on LITFULO

To help your patients secure reimbursement through their private plan and provide financial assistance, LITFULO is available through specialty pharmacies.

Specialty Pharmacy Providers

Simply use one of the Specialty Pharmacies' forms or a prescription and send it to the Specialty Pharmacy of your choice. Your patients will be contacted by the Specialty Pharmacy within 48 hours.

Bayshore® Specialty Rx

Phone: (844) 577-9779
Fax: (866) 640-1749
Email: litfulo@srxhealth.ca

Specialty Pharmacy Providers will help you and your patients with the following services:

Reimbursement Navigation

- Conduct a benefits investigation to determine your patients' drug insurance coverage, including out-of-pocket costs
- Research your patients' drug plan for prior authorization (PA) requirements as well as assist you and your patients with completion of the forms

Financial Assistance

- If your patients have private insurance or are paying out-of-pocket, they may be eligible for co-pay assistance

Pharmacy Coordination and Delivery

- Once reimbursement is secured, your patients will have the option to choose which pharmacy they'd like to use.
- If your patients choose to continue to use the specialty pharmacy, they will manage the prescription fulfillment, renewals and/or reauthorizations and coordinate the drug delivery to your patients
- If they'd like to use their local pharmacy, the prescription can be transferred and the local pharmacy will coordinate dispensing and other services

Contact your Pfizer Sales Representative if you have questions on the LITFULO prescription pathway.
